Storage of 6000 packages

Speed

10 seconds to deliver complete script batch, irrespective of script size

Delivery

High speed elevator with 4 drop points

Software Interface

Fred Health

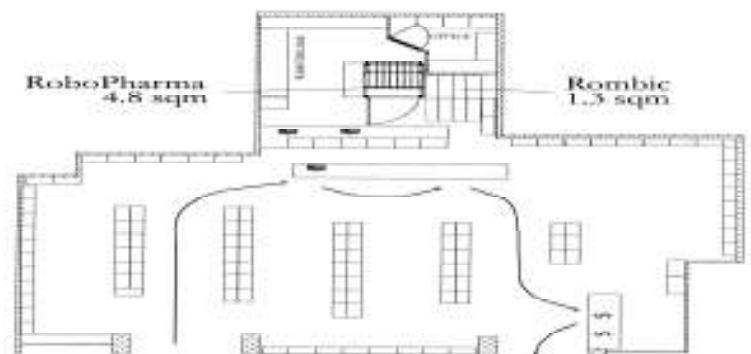

Installation Date

January 2009

Working together after an onsite assessment and dispensing review RoboPharma provided Chris with a customised layout design and overall solution to maximise the pharmacies efficiency.

The solution provided for RoboPharma to install Chris's system centrally within the dispensary with four (4) designated drop points to maximise workflow due to the confined area.

Chris is delighted with the outcomes which have exceed all his expectations noting; "our prescription volumes have increased dramatically, with our customers and staff clearly happy with the benefits of an improved working environment, reduced waiting times allowing for more customer focus".

Simple & Reliable
Fast & Compact
